Currently Studying

#### Leap School

##### Lose the fear to speak English.

Currently Studying

### LANGUAGES

English B2  
Spanish Native

### PROFILE

Software Engineer with 5 years of experience in developing, and maintaining software solutions. Proficient in a variety of programming languages such as C#, Javascript, with expertise in full-stack development, system architecture, and DevOps practices. Adept at writing clean, efficient, and scalable code applying AI analysis and optimizations(ChatGTP). I promote teamwork, collaboration and communication.

### WORK EXPERIENCE

#### Full-Stack Developer – DaCodes

<https://dacodes.com/>

March 2025 / Present  
Merida, Yucatan

I work remotely, I implemented communication flows with ChatGPT by developing efficient APIs in .NET to process requests/responses with the OpenAI API, integrated MongoDB to store conversation histories and contextual data, improving the user experience with dynamic interfaces in Vue.js with real-time rendering of AI-generated responses.

#### Full-Stack Developer – Telepro by PFS

<https://telepro.com.mx/>

July 2022 / December 2024  
CDMX, Mexico

I work remotely, I keep track of my time in an organized way, I work with .NET with languages like C#, VB, Javascript, CSS, HTML, JQuery, Bootstrap, SQL, CI/CD pipelines are managed to automate continuous integration and deployment in Azure DevOps applications, improving efficiency and reducing delivery times. My biggest challenge is resolve production issues with the credit bureau API.

#### Full-Stack Developer – Ehecatl Software Services

<https://www.ehecatl.com.mx/>

December 2021 / July 2022  
Veracruz, Veracruz

My expertise lies in building robust, scalable, and maintainable software systems using the .NET framework, C#, React and Javascript. I excel in working in an organized, optimal, and timely manner, ensuring that projects are delivered efficiently and meet the required standards. My biggest challenge was work optimize and link APIs to the MVC architecture model.
